Baker Commodities, Inc.
Recycling for Life®

TOTAL GREASE MANAGEMENT

The Baker Commodities Total Grease Management™ Program incorporates the collection and recycling of used cooking oil from restaurants and food manufacturers, the pumping and cleaning of grease trap and interceptor systems, commercial hydro jet drain cleaning, full service plumbing and high pressure power washing services. Total Grease Management™ is a customer driven program Choose from one, some or all of the services and Baker Commodities will customize the perfect program for you!

GREASE COLLECTION

To meet our customer needs, Baker Commodities provides a variety of options for used cooking oil removal. These include traditional barrel and drum services, large tank and container handling, or automatic pumping systems from inside storage tanks.

GREASE TRAP AND INTERCEPTOR PUMPING SERVICES

Our grease trap pumping services allow us to safely remove and dispose of trap grease and waste water from restaurant interceptor systems in accordance with all local ordinances and environmental regulations.

DRAIN CLEANING AND PLUMBING

As a value-added services to our grease customers, Baker Commodities offers hydrojet drain cleaning and commercial plumbing services to assist in maintaining a reliable plumbing network.

HIGH PRESSURE POWER WASHING WITH WATER RECOVERY

We handle the dirty and tough cleaning jobs with our new high pressure power washing equipment. All waste water is recovered and processed utilizing state-of-the-art processing techniques.

PREVENTATIVE MAINTENANCE

In order to prevent costly cleaning and plumbing services before problems occur, Baker Commodities provides customized preventative maintenance programs . Baker Commodities' video camera pipe inspection service allows for real-time visual inspection of sewer lines and other piping, pinpointing damaged pipes and potential problem areas.

All materials collected are recycled and re-purposed into other products, including biodiesel fuels!
